iAdeptive Technologies

VERSION 1.0 · OCTOBER 2026

CATEGORY B AND CATEGORY C

NASA SEWP VI Ordering Guide

iAdeptive Technologies, LLC is a prime contract holder on NASA SEWP VI, a Government-Wide Acquisition Contract (GWAC), in two categories. Any federal agency, and any contractor its Contracting Officer authorizes, can use these contracts to buy our AI, data governance, data platform and modernization services. Orders go through NASA's SEWP Program Office, with no separate contract action needed.

CATEGORY B

80TECH26D0506

Enterprise-Wide ITC/AV Service Solutions

CATEGORY C

80TECH26D1612

ITC/AV Program Level Services

What you can order

AI and machine learning. Assistants that answer from approved sources, predictive models, document AI, responsible AI under ISO/IEC 42001.

Data governance. Data quality, lineage and catalog, entity resolution, governed semantic layers, access controls.

Data platforms and analytics. Lakehouses and dashboards on FedRAMP High cloud environments.

Modernization and cloud. Application modernization, cloud operations and DevSecOps.

Program management. IT program and project management.

How to get a quote and place an order

1 **Confirm scope.** Unsure a requirement fits SEWP VI? Send a short summary to help@sewp.nasa.gov for a quick review.

2 **Request a quote.** Orders follow the fair opportunity procedures of FAR 16.505(b). Issue an RFQ, RFI or market research request in the SEWP Quote Request Tool. Select iAdeptive, or Category B or C. We answer questions through the tool's Q&A and submit our quote and CLIN verification file through SEWP.

3 **Issue the delivery order.** Your Contracting Officer issues it on your agency's form. Include:

- Order date and order number
- Issuing and ordering agency
- Appropriation and accounting data
- SEWP CLINs and descriptions
- Period of performance for services
- CO name, phone, email, signature
- Our name, address, SEWP VI contract no.
- Billing and shipping addresses
- Total amount
- Any agreed terms or statement of work

4 **Send it to SEWP.** Email sewporders@sewp.nasa.gov or fax 301-286-0317; we can forward it for you. Work starts once NASA assigns a SEWP Control Number. We confirm receipt within one business day.

5 **Micro-purchases.** For card buys under the micro-purchase threshold, contact our Program Manager directly for a quote.

After award: support and delivery

Once NASA assigns the SEWP Control Number, our Program Manager contacts your Contracting Officer and technical lead to schedule a kickoff and confirm named delivery leads. We report order status to NASA within two business days of any change.

Services follow the order's statement of work and our ISO 9001 and ISO/IEC 20000-1 processes. Information security follows our ISO/IEC 27001 certified system. If delivered work misses the order's requirements, we correct it at no added cost within the period of performance.
